學歷

國立清華大學 服務科學所 預計 2026 / 08 畢業

碩士 MBA

HTWG Konstanz University of Applied Sciences, Germany 2026/03~2026/08

交換學生, Computer Science

東吳大學 資料科學系 2022/09~2026/08

GPA: 3.9/4.0 / 書卷獎

技術能力

程式語言與機器學習： Python, SQL, R, scikit-learn, PyTorch, TensorFlow, NLP, LLMs

資料分析： Pandas, NumPy, Tableau, Power BI, ETL, Statistical Modeling

開發工具： Streamlit, Git, GitHub, Docker

工作經歷

永豐銀行｜資料工程實習生 2025/07 – 2025/12

- 開發 Tableau 儀表板，監控關鍵業務指標並優化報表製作流程。
- 運用 SQL 與 ETL 流程進行資料處理及整合，支援分析與報表需求，與產品及行銷團隊跨部門合作，將資料洞察轉化為業務決策依據。
- 撰寫 SEO 優化的金融產品內容，提升數位曝光與使用者互動。

東吳大學｜課程助教 2025/09 – 2025/12

- 協助學生進行資料前處理、清理及視覺化，支援行為資料分析。
- 協助課程實作與分析練習，引導學生解讀分析結果。

專案經歷

人類與 AI 決策行為研究｜行為資料分析、統計分析 2025/08

ICKII 國際研討會｜最佳論文獎

- 探討人類與 AI 代理人的決策行為差異，分析不同情境下的決策表現。
- 運用統計分析比較人類與 AI 的決策結果，辨識決策一致性模式。

智慧觀光個人化推薦系統｜Python、推薦系統、Figma 2024/11

Open Data 黑客松｜第三名

- 開發個人化旅遊推薦系統，透過分群方法進行使用者區隔，提供客製化旅遊建議。
- 整合使用者偏好至推薦流程，提升推薦內容的個人化程度與旅遊規劃體驗。

YU-HSUAN (TINA) YEH

EDUCATION

National Tsing Hua University, Taiwan Expected Jun 2028

MBA in Service Science

HTWG Konstanz University of Applied Sciences, Germany Mar 2026 - Aug 2026

Exchange Student, Computer Science

Soochow University, Taiwan Sep 2026 - Aug 2026

Bachelor of Data Science | GPA: 3.9/4.0 | Academic Excellence Award

TECHNICAL SKILLS

Languages & ML: Python, SQL, R, scikit-learn, PyTorch, TensorFlow, NLP, LLMs

Data Analytics: Pandas, NumPy, Tableau, Power BI, ETL, Statistical Modeling

Development: Streamlit, Git, GitHub, Docker

WORK EXPERIENCE

SinoPac Bank | Data Engineer Intern Jul 2025 – Dec 2025

- Developed Tableau dashboards to monitor business metrics and streamline reporting workflows.
- Processed and integrated data using SQL and ETL workflows to support data analysis and reporting.
- Collaborated with product and marketing teams to translate analytical insights into business decisions.
- Created SEO-optimized financial product content to improve digital visibility and engagement.

Soochow University | Teaching Assistant Sep 2025 – Dec 2025

- Assisted students with data preprocessing, cleaning, and visualization for behavioral analysis.
- Supported hands-on exercises and helped students interpret analytical results.

PROJECTS

Human–AI Decision-Making Research | Behavioral Analytics, Statistical Analysis Aug 2025

ICKII International Conference – Best Paper Award

- Examined differences in decision-making behavior between humans and AI agents
- Conducted statistical analyses to compare human responses and AI-generated decisions, identifying patterns in decision consistency.

Smart Tourism Recommendation System | Python, Recommendation Systems, Figma Nov 2024

Open Data Hackathon – 3rd Place

- Developed a personalized travel recommendation system using clustering-based user segmentation to generate tailored travel suggestions.
- Integrated user preferences into the recommendation process to enhance personalization and improve the travel planning experience.
